

97% Dry Vapor Steam Cleaner to Clean-De-grease-Sanitize-Disinfect and Deodorize

THERMA-KLEEN® is proud to introduce their newest vapor steam cleaner

Therma-Steam Industrial XL 1

24/7 continuous steam at 365°F at 155 psi

The only AMERICAN MADE vapor steam cleaner. The THERMA-KLEEN® THERMA-STEEM INDUSTRIAL XL 1 model is easy to use. Just plug into a 3-phase electrical outlet, fill the water reservoir, turn the heater switch "ON" and within minutes the cleaner will be ready with the ability to produce some of the most powerful pressures and temperatures in the industry today of 155 psi/10.7 bar (pressure) and at 365°F/185°C (temperature). The XL 1 provides continuous cleaning pressure and temperature 24 hours a day, 7 days a week.

The THERMA-KLEEN® THERMA-STEEM INDUSTRIAL XL 1 is our most industrial quality model. It is used for cleaning and de-greasing areas where water should not or cannot be used; i.e. on conveyors, food processors and plants, bakeries, caterers, condenser coils, industrial equipment, machinery, ships, correctional facilities, military bases, metal fabrication industry, automotive, airline and oil companies. It can be used safely around all electrical components due to its low moisture content.

5 gallon boiler
7 gallon water reservoir

(see brochure for more information)

Specifications:

- Temperature: max. 365°F/185°C
- Steam Pressure: max. 155 psi/10.7 bar
- Boiler: 5 gallon Stainless Steel Boiler & 7 gallon Stainless Steel Water Reservoir
- Electrical: 480 volt/ 3 phase @ 26 amps, 20 kW heater (220/575 volt upon request)
- Cabinet: 23" W x 33" D x 30" H Handle from floor: 34 1/2" H
- Weight: 215 lbs. empty (with accessories), 303 lbs., completely filled with water
- Steam Production: 55 lbs. per hour

Safety Features:

- Low water alarm signals low water level w/ audible alarm and flashing red light
- High Temperature Limit Control for the heating element
- High pressure limit switch
- High pressure relief valve

Additional Features:

- Pressure Transducer
- In-Line pump filter
- Stainless steel hose
- Adjustable Steam Control Valve
- Fan Cooled

If you want to CLEAN IT...STEAM IT!!
